Sir:

In complete response to the Office Action mailed October 4, 2002, please first amend the above-identified patent application as follows:

**IN THE CLAIMS**

Please amend claims 84, 85 and 90 as follows:

84. (Twice Amended) A manufactured article produced by a method for bonding a first substrate surface to a second substrate surface comprising

- (a) providing a catalyst at the first substrate surface;
- (b) providing a metathesizable material between the first substrate surface and the second substrate surface or providing a metathesizable material as a component of the second substrate; and
- (c) contacting the catalyst on the first substrate surface with the metathesizable material under normal ambient conditions so that the metathesizable material undergoes a metathesis reaction and bonds the first substrate surface to the second substrate surface.

85. (Amended) A manufactured article that includes a first substrate surface, a second substrate surface and an adhesive layer interposed therebetween, wherein the first substrate surface comprises an elastomeric material and the adhesive layer
